A Busy Year for the Post-Acute Care Collaborative

Four Major Improvements to Our Data Library

- **Quarterly Data Updates**
  - New tools intended to allow providers to compare home health organizations’ efficiency and quality
  - Available Summer 2017

- **Home Health Analytics**
  - Medicare claims data available by quarter, rather than full year
  - Customizable time frames allow members to select individual quarters or rolling years

- **Demographics Data**
  - Post-Acute Pathways Explorer provides custom reports on post-discharge relationships in user-defined markets
  - Tool available to access U.S. Census demographic data
  - Includes race, gender, income, age, and more

- **Market-Level Insight**
  - Available now
Introducing the Post-Acute Pathways Explorer

Market-Level Insights At Your Fingertips

Key Use Cases

1. Size your Medicare Market
2. Identify Provider Relationships
3. Assess Care Quality and Efficiency
