

Ask Advisory On your radar

H1 • 2022

What are health care leaders thinking about? Advisory Board's **AskAdvisory** service directly interacts with 1,000+ members every month. On Your Radar consolidates this unique insight to enhance your understanding and deepen your connections.

TREND SNAPSHOT

Organizations' top interest areas based on 3,000 requests

BEHIND THE DATA

What do the trends mean?

- Value-based care is top of mind for non-providers, who are working hard to understand how to achieve a value-based care world.
- Provider organizations are grappling with the effects of being understaffed and burnt out. They must address structural issues and staff anxiety to slow turnover.

CONVERSATION STARTERS

Using trends data to spark meaningful conversations

"I hear a lot of interest in taking on more risk"...

- How are you investing in more collaborative plan-provider relationships?
- What innovative ideas have you explored to reduce costs and improve clinical outcomes?

"Long-term strategies are key when it comes to staffing"...

- How might you promote regular mental health conversations among staff?
- Communication about staffing plans help alleviate staff anxiety—are you keeping your staff in the loop?
